

# SUNBELT RENTALS EXPRESS CATALOGUE

# EQUIPMENT AVAILABLE 24/7

Sunbelt Rentals Express gives you quick and easy access to essential equipment, 24/7. Stocked and configured to meet the exact needs of your site.

Whatever equipment you need on site such as PPE, critical safety equipment, communications equipment, small tools and spare parts – you can even use it to store your own items including vehicle keys. It ensures that you always have the correct ready to use materials at your disposal at all times.

## Available Models

Based on your requirements, we will suggest the optimal configuration.

# MAIN TERMINALS

Each Sunbelt Rentals Express system relies on a Main Terminal, serving as the central control unit for the interconnected lockers. This Main Terminal acts as the “brain” of the system and features a main display unit with a fixed 8 locker setup. The alternative is integrating it into a larger locker unit known as the Large Dispensing Unit (RDU), negating the necessity for a separate display. Regardless of configuration, every system needs a Main Terminal to function.
