

SUNBELT[®]
RENTALS

PLANT

**WE'RE KNOWN
FOR PLANT HIRE.
YOU NEED IT?
WE'VE GOT IT.**

Sunbelt Rentals is the UK's leading supplier of plant hire equipment, with the largest fleet in the country. From dumpers to excavators, telehandlers to compressors, as well as plant attachments and tower lights, we deliver ready-to-work equipment where and when you need it.

Through our multi-million pound fleet enhancement programme we invest heavily each year in state-of-the-art equipment from the world's leading manufacturers. This investment is helping us realise our vision of a safer, zero-carbon future, with the most innovative and sustainable equipment from electric excavators to dual view dumpers added to our hire fleet.

PLANT

EXCAVATORS

From 0.8 tonne compacts to 13 tonne tracked excavators, we have one of the industry's largest hire fleets. Within our fleet we have a range of excavators which can be used with bio-degradable hydraulic oil, ideal for use on sensitive sites, as well as units with Tier 4 compliant engines.

We also offer fully electric excavators that deliver the performance of conventional units but give significant reductions in noise and zero exhaust emissions, thus meeting the growing need for low carbon construction equipment.

DUMPERS

Our fleet of four-wheel drive dumpers extends from 1 tonne to 10 tonne heavy duty machines. These include forward tipping, swivel tip, hi-viz, dual view and cabbed models to provide a safer solution in terms of visibility, operator protection and stability.

TELEHANDLERS & FORKLIFTS

We offer one of the industry's largest fleets of Telehandlers, with 7 - 20 metre reach capabilities, all of which meet the Tier 4 emission regulations. Our range includes telehandlers which utilise the award-winning JCB EcoMAX engine; this technology meets legislative standards, runs on standard oil and offers a 10% reduction in fuel consumption, compared with standard units.

Our range of JCB 926 Fork trucks have a load capacity of 2.6 ton and the ability to cope with rough terrain. Offering an essential solution to moving heavy, palletised equipment at events, sites and warehouse locations.

ROLLERS

Our fleet includes pedestrian, ride-on tandem and trench rollers. The walk-behind pedestrian rollers are compact and easy to manoeuvre, whilst our ride-on tandem rollers range from 800mm to 1300mm drum size. Trench rollers are ideally suited for the compaction of subbases for foundations, roads and car parks and offer safety features including smart remote-control systems that utilise infrared signals with line-of-sight control.

COMPRESSORS & BOWSERS

COMPRESSORS

We offer a full range of portable air compressors from 8 - 600 cfm. From small, lightweight electric compressors ideal for powering air tools to heavy duty, diesel powered, towable units. Our 260, 400 and 600 CFM compressors are capable of powering multiple tools on site with an operating pressure from 100 psi, ranging to a high-pressure output of up to 175psi. All are available with a range of security devices, for added anti-theft protection.

WATER AND FUEL BOWSERS

Standard and clean water bowsers are available in 1125 - 2250 litre capacities, with highway and site tow models, they ensure water is available on site, when needed.

All fuel tanks are fully bunded and available in 1000 to 9000 litre capacities. Tanks can be linked together with automatic change over valves and fitted with fuel sensors that automatically send a refuelling message to a designated phone.

TOWER LIGHTS

This year we have made significant investment in our lighting fleet and are proud to offer the world's largest and most economical range of tower lights.

With the demand for diesel powered Tower Lights in the construction market still significant, we've sourced the most economical units on the market to bring you our X-eco range, a diesel powered tower light that offers a 72% reduction in fuel usage and emissions when compared with standard metal halide units.

For the more eco and noise conscious sites we have a range of self-charging hybrid tower lights offering a 94% reduction in running costs compared with the metal halides, bringing an average fuel bill down to just £27 per month per unit. In addition, our solar hybrid and fully solar units can take fuel costs and emissions down to zero.

So whatever your lighting needs, we have a solution for every site.

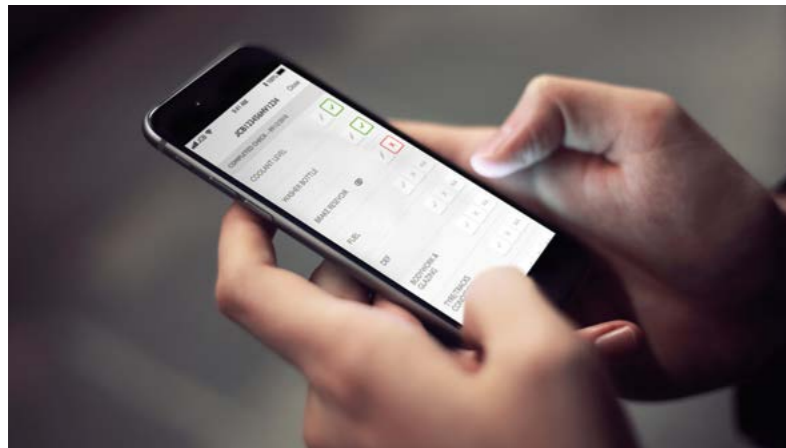

ATTACHMENTS & TELEMATICS

ATTACHMENTS

As well as supplying plant equipment, we are the UK's largest supplier of hydraulic excavator attachments. Available for hire or sale, our range includes augers, pulverisers, grabs, shears, specialist buckets and pile croppers.

TELEMATICS

As one of the pioneers of incorporating telemetry on plant machinery, our rental equipment utilises a fully integrated GPS telematics solution. Telematics allow for real-time tracking to enhance plant security and locate machinery in the unfortunate event it is ever stolen. Users can customise data retrieval and generate fleet summary reports to analyse utilisation, reduce costs and view the CO₂ emissions generated from your hired equipment.

SAFETY AND SERVICE

SAFETY ALWAYS COMES FIRST

We always want to ensure the safety of our colleagues, our customers and everybody who we deal with. And that's why we've received our ninth consecutive RoSPA Gold Level Award.

ROBUST PROCEDURES

Sunbelt Rentals was the UK's first national plant hire company to achieve accreditation to ISO 9001, ISO 14001, OHSAS 18001, ISO 50001 and ISO 20121. We've migrated over to ISO 45001 and achieved ISO 50001:2018 energy standards certification, supporting our move towards a greener future.

DRIVING DOWN RISKS AND ACCIDENTS

We're one of the hire industry's leading customer training providers. Through upskilling our colleagues and our customers, we're driving down risks and accidents.

DELIVERING SERVICE EXCELLENCE

We do so much more than just supply equipment. Every single member of the Sunbelt Rentals team has a part to play in delivering service excellence. That's why 99.29% of our customers rate us as 'Excellent' or 'Good'.

PROVIDING A GREAT CUSTOMER EXPERIENCE

Around 70% of our orders are placed for delivery within 24 hours. So, it's vital that we respond to customer needs quickly and efficiently. We have a dedicated Customer Experience Team focused on meeting your needs.

SUSTAINABILITY 2025

RESPECTFUL OF COMMUNITIES

Sunbelt Rentals' 'Sustainability 2025' policy represents the company's pledge to conduct responsible business through commitment to safety, environmental sustainability, communities, people and ethics. The Sunbelt Rentals team will commit to support all community engagement initiatives you develop across the whole project.

PROVIDING RENTAL PRODUCTS AND MANAGED SOLUTIONS INTO EVERY MARKET AND SECTOR

PLANT & TOOLS
Over 200,000 items of equipment to choose from

INDUSTRIAL
On your site to meet the demands where every second counts

PLANT ATTACHMENTS
The sole UK distributor for several of the world's leading attachment manufacturers

UTILITIES
The UK's largest specialist Utility hire company

POWERED ACCESS
The combined height and reach of our equipment can transport you safely over 50,000 meters

SAFETY & COMMUNICATION
The industry's most knowledgeable and experienced specialists in this field

LIFTING
Our solutions have been used on 7/10 of the tallest buildings in the UK

SURVEY
The UK's industry-leading supplier of land survey and precision measurement technologies

POWER
5000 rental units - Enough equipment to power a small city

TEST & CALIBRATION
Europe's leading test equipment specialists since 1996

CLIMATE CONTROL
24/7 dedicated FM control centre

RAIL
5-star RISQS accreditation and Personal Track Safety (PTS) trained, 24/7 teams

ACCOMMODATION
24/7/365 call out facility covering 20,000 items on fleet

HOISTS
We hold over 10km of mast sections, enough to scale London's Shard building over 32 times

ENGINEERED ACCESS
Award-winning ground access and crowd control solutions, engineered to your exact requirements

FORMWORK & FALSEWORK
We are the exclusive hire supplier of MEVA products in the UK

TRAFFIC MANAGEMENT
24/7 national coverage with operations covered by QEHSS accreditations

TRAINING
We have a dedicated Health and Safety training operation to qualify our own people and our customer's people

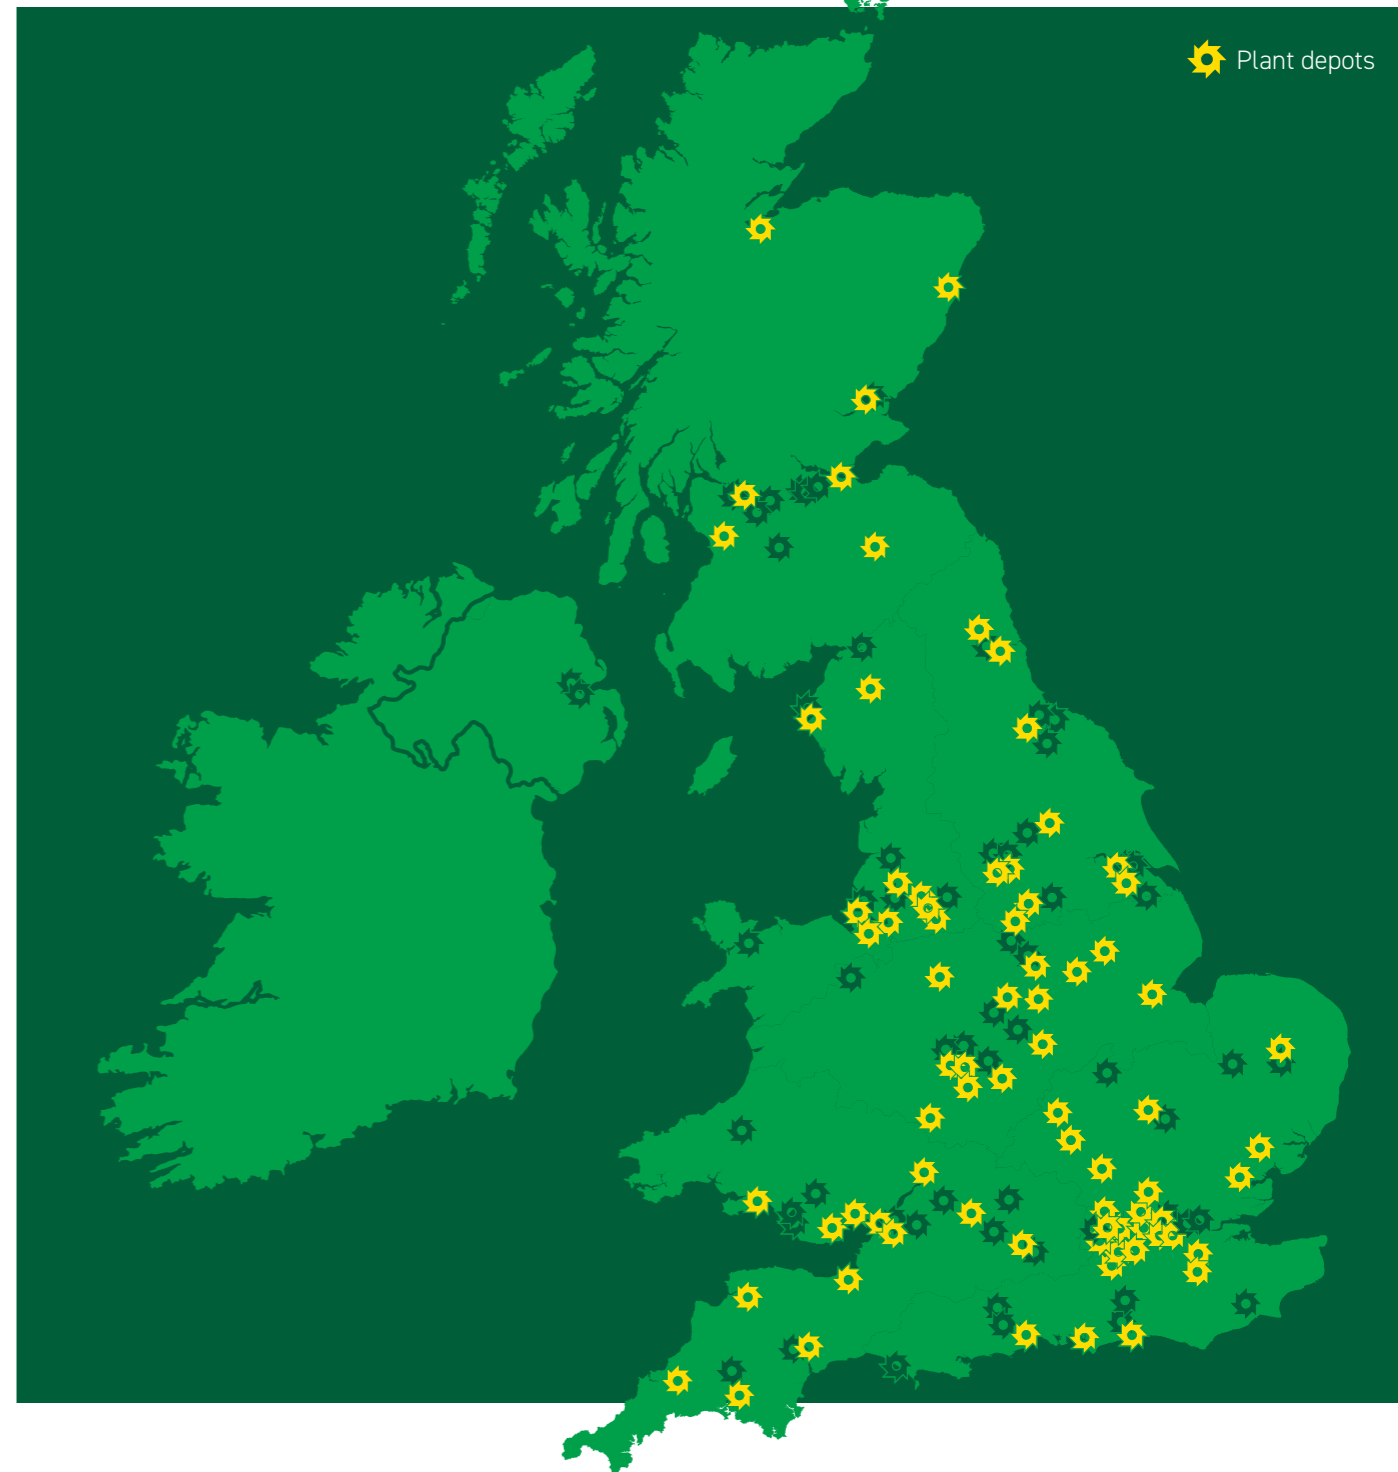

OUR PRIMARY PLANT DEPOTS

With over 60,000 items of equipment available in our hire fleet, we offer one of the widest and most modern ranges of plant in the UK. Equipment can be purchased or hired for short or long term.

Our specialist plant locations are nationwide. Find your nearest depot by: visiting our website www.sunbeltrentals.co.uk/find-a-depot/ calling **0330 433 1766** or emailing enquiries@sunbeltrentals.co.uk
